CORONA

Flavour and ingredient specialists since 1898

Established in 1898, CORONA is one of Australia's oldest and most experienced leading food companies.

Our founder arrived in Australia from the UK as a free settler during the gold rush period and initially worked as a baker. He was quick to realise the opportunity to supply ingredients to bakers. Starting business in Main Street Bendigo, then not long after moving to King Street, Melbourne then South Melbourne and now Knoxfield, Victoria, where Corona is based today. The company has long since diversified from its food application origins, solely supplying pastry cooks, essences for soft drinks and ice creams. Today, we are a 5th generation family owned and operated business that specialises in any food application that requires technical manufacturing problems resolved. Corona develops, produces and provides products (sweet or savoury) to the food industry both locally and internationally.

FOOD QUALITY AND SAFETY

We are conscious of the need to supply our customers only those products which meet the highest quality and food safety standards. That is why Quality & Safety has always been part of Corona's core values. This is demonstrated by our early initiative to become one of Australia's first food companies to be ISO accredited in 1993. Today, Corona continues to hold HACCP certification to international requirements & BRC certification, giving our customers assurance we deliver products as promised.

WHY CORONA?

Corona is passionate about all things food! Flavour and food excite us. Most importantly our customers are viewed as partners; we value customers whether big or small with a focus on competitive pricing of products and attainment of delivery dates.

Our product's ingredients are carefully selected to be of the highest quality and are sourced locally where possible.

Our products are made on-site at Knoxfield, Victoria. Our on-site research and development team continuously work to create innovative and versatile products that excite the tastebuds, with a strong focus on both local and authentic international flavour profiles. Each new product is thoroughly tested for both taste and function before being released for sale.

What do we do?

At Corona's core is servicing the needs of our Wholesale and Industrial customers by providing quality products and services based on three business pillars:

- Research & Development providing sound technical solutions for customers
- Manufacturing consistently producing the highest quality products (wet or dry)
- · Logistics delivering products through our warehouse and transport fleet

CORONA wholesale

Butchers | Delis | Fish & Chips | Food service

Corona's wholesale range of manufactured products includes; dry flavours, glazes, coatings, burger mixes, sausage mixes, marinades, sauces and more, all made to the highest quality, at a competitive price backed with a reliable delivery service.

You'll find an extensive list of products in this product catalogue and online.

CORONA industrial

Food processors | QSR Fast Food Retailers Supermarkets

Corona specialises in supplying both wet & dry products to the food industry; as well as sweet or savoury products, functional ingredients and flavour solutions.

We view our customers as partners and work together to create special mixes that are custom blended and unique within the marketplace.

CATALOGUE ICONS GUIDE

NATURALLYINSPIRED

✓ No artificial flavours ✓ No artificial colours ✓ Certified gluten free ✓ No added MSG

All these products contain non-artificial flavours and colours; are certified gluten free and have no added monosodium glutamate.

CONTAINS GLUTEN These products contain added ingredient's with gluten.

CERTIFIED GLUTEN FREE

These products have been

tested to be gluten free.

CERTIFIED LOW FODMAP

Each seasoning has been independently analysed adhering to research and evidence based guidelines.

HALAL CERTIFIED

These products' ingredients have been reviewed & certified by the ICCV authority.

AWARD WINNING MIXES Mixes used as a base for award winning sausages and other products. FODMAP FRIENDLY CERTIFIED SEASONING

Eat with Confidence!

FODMAP FRIENDLY CERTIFICATION WHAT, WHY & WHERE?

An estimated 1 in 7 people suffer from IBS! The low FODMAP diet is recognized around the world as the most effective diet to manage IBS.

Co-founded by world leading expert, Advanced Accredited Practicing Dietitian Dr Sue Shepherd, the 'FODMAP Friendly' Certification gives people with IBS and other individuals needing to follow a low FODMAP diet, the ability to easily identify and select suitable foods they can buy and eat with confidence.

DIDThe low FODMAP diet is recognisedYOUaround the world as the most effectiveKNOWtreatment for IBS-type symptoms.

WHAT ARE FODMAPS?

FODMAPs can be found in a variety of foods. They can often trigger symptoms of IBS that include bloating, wind, abdominal pain and diarrhoea and/or constipation. Not only do FODMAPs trigger symptoms in people who suffer from IBS, FODMAPs can also affect sufferers of Coeliac Disease and Inflammatory Bowel Diseases such as Crohn's Disease.

FODMAP is an acronym that stands for:

	DESCRIPTION	DETAILS	FOOD EXAMPLES
F	Fermentable		
0	Oligosaccharides	Fructans and Galacto- oligosaccharides	Wheat, rye, barley, onions, garlic, legumes
D	Disaccharides	Lactose	Milk, yoghurt, ice-cream
М	Monosaccha- rides	Fructose (in excess of glucose)	Honey, watermelon, apples, pears, high fructose corn syrup
А	And		
Ρ	Polyols	eg., Sorbitol, Mannitol, Maltitol, Xylitol	Apples, apricots, cauliflower, chewing gum, breath minths

OUR LOW FODMAP RANGE INCLUDES

6086	LF CHIPOTLE & MAPLE RUB	2KG
5886	LF LEMON PEPPER & HERB RUB	2KG
3847	LF MOROCCAN RUB	2KG
4013	LF BEEFY 1-8 S/M	1KG

Ask in store for products utilising certified seasoning and try today.

DID YOU KNOW Pe

People requiring a low FODMAP diet are 15 times more common than individuals requiring a gluten free diet.

GLAZES Corona dry marinade 'glazes' are formulated to be applied to meat

where the flavours hydrate from the meat's moisture content,

resulting in an appealing glaze.

SPRINKLES

Corona sprinkles are packed full of flavour with great eye appeal. Our sprinkles are sure to add vibrancy to any protein on display.

MARINADES & SAUCES

Corona specialises in marinades with excellent flavour and coating ability for a variety of meat species and cuts. A focus on taste, quality and presentation is achieved in our Marinade Flavour (MF) range. At Corona we are constantly developing new flavour profiles, whilst continuing to offer our more traditional and popular flavours.

BUTCHERS CHOICE

4551 BTC RICE S/M

Corona is well known for making award winning sausage meals. All blends have been designed to follow a ratio of; flavoured meal, water and meat & fat. The most common ratio being 1 - 2 - 10.

Use only fresh trimmings, the quality of the product will be determined by the quality of meat being used

1kg

Flavoured

meal

2kg

Water

10kg

Meat & fat

Use ice cold water that has been refrigerated below 3°C and keep emulsion less than 4°C

Once made, refrigerate immediately and cover with a high density plastic bag to prevent fridge burn

Best method

- Use beef/lamb/pork or poultry at 75 85% visual lean
- Mince meat through a mincer on a coarse plate
- Add 50% of the flavoured meal to the meat and mix thoroughly
- Add 50% of the ice cold water and blend well
- Add the rest of the flavoured meal, ice cold water and mix well until dispersed
- Mince sausage emulsion to the required texture (fine or coarse plate)
- Fill into casing quickly, then refrigerate less than 4°C

Seafood Flavourings

Traditional Salami Mix

Corona's 1017 TRADITIONAL SALAMI MIX has been developed to make the process of making salamis easy. With a simple two step method that will produce a quality outcome, which you can add your own special flavourings twist: Chilli, pepper etc..

2-step method

Step 1

- Mince pork and fat with a coarse 6mm (1/4") or 3mm (3/16") mincing plate, depending on your preference
- · Sprinkle Wine and Spirit over meat and mix well
- · Delicately add in the Salami Pre-mix and mix thoroughly
- · Press meat down firmly in tub, cover with cloth and place in fridge overnight

Step 2

- Carefully wash and prepare casings in a solution of wine & water
- . Fill out casings carefully avoiding air pockets. Then prick salami with
- needle allowing no air bubbles to remain in the salami
- . Hang to dry in a well-ventilated cool environment until firm

1kg of 1017 TRADITIONAL SALAMI MIX contains all the

required ingredients for salami Flavoured making, nothing to add other than your own flavouring twists

Pie Premixes

Corona's range of premixes make it easy in producing a consistent and thick filling for pies. From the simple base mix, classic, beef, chicken or pie mix we have it covered. All very tasty and simple to use.

Select the appropriate mix from the range: Base 8861, Classic 2682, Beef 8192, Chicken 8193 or Pork 4156

Mix 5.4 litres of cold water with 1kg of premix

For effective results use 4.8kg of your selected produce - Beef, chicken, pork.

Best method

- Add 1kg of the selected premix to 5.4L of cold water, blend until smooth and all the mix is dissolved
- Add 4.8kg of selected produce and combine well, cook until produce is cooked through. The mix can be stored at below 4°C if not cooked immediately
- Fill into pastry, cook for an additional 20mins at 165 170°C **Additional options**
- Diced raw vegetables add 400g for 1kg of filling mixture
- Finely sliced vegetables add 300 400g per 1kg of filling mixture
- For additional flavour consider adding a Corona marinade at 100g per kg or topping the mix with a Corona dry flavouring at 100g per kg

Collagen Edible Fresh

- Fresh casings are ideal whether you are producing a simple BBQ snag or a premium speciality sausage
- Available in a basic casing for volume production of value sausages providing a consistent bite and glossy appearance, or a premium casing for specialty sausage. Both offer a high level of clarity for excellent consumer appeal and are cost effective alternative to sheep and hog gut
- Available in 22, 23, 26 & 30mm

Collagen Edible Processed

- Depending on your specific requirements, Edible process casings are ideal for frankfurts, hotdogs, kabana, kransky and more...
- Ideal for smoking, drying or even steam cooking of sausages, with optimal smoke intake to ensure a consistent product every time
- We have a full range available to suit your needs including coloured casings and Halal options

Non-Edible Processed

- · These are ideal for salami, strassburg and other small good production
- The ideal casing selection will depend on the process being used cooked, smoked hot/cold, fermented or air dried
- · These products need to be soaked prior to filling
- Available in a range of diameters and lengths, they can be clip or string closed
- These casings must be peeled off before consumption

For the best results, discuss your specific requirements with our customer service team.

Alto's Award Winning rPET Moisturelock Meat Trays

...comprise recycled material and are accepted by every kerbside recycling scheme throughout Australia and New Zealand.

Why rPET?

- It's a sustainable, cost-effective, high-performing solution that is a replacement for virgin PET
- Requires less energy to manufacture per kilogram than virgin PET, further contributing to a decrease in the environmental footprint

- State-of-the-art processes and quality assurance standards have enabled Alto to develop rPET that can be combined with virgin PET and mimic its performance
- No compromise to manufacturing efficiencies or product performance standards

The Key Features of our Gen 2 Tray Range

Holds & retains liquid (eliminates the need for absorbent pads)

Range available in Clear

Applications

rPET - made using Post Industrial and Post-Consumer Recycled PET (PCR)

Produced using Food Tray shape delivers Contact approved maximum footprint materials & excellence in presentation

Angled rim provides improved seal reduces risk

of leakage

Seafood

Fresh Red Meat

LABELS

We can print nutrition, ingredient and country of origin labels to match Corona products. Examples of these labels can be found on the following few pages. Please speak to our sales team for more information.

The below list of labels are great for marketing your product range and getting your customer's attention - simply stick on the pack.

COUNTRY OF ORIGIN LABELS

In certain circumstances Australian food must be labelled to convey the percentage of Australian content within a finished good. This helps consumers make informed decisions about the food they buy. If unsure which label you should use, our sales team would be more than happy to help you through it.

9802	LABEL "MADE IN AUST 90%"	500
9801	LABEL "MADE IN AUST 95%"	500
9803	LABEL "MADE IN AUST BLANK %"	500
9800	LABEL "PRODUCT OF AUSTRALIA"	500

PROMOTIONAL LABELS

Eye catching labels to help promote your product. Please refer to the following pages for label designs.
